Judge Durham was authorized to report an amendment to senate bill providing for the purchase by the U. S. government of the freedmen's bank, and appropriating for the purpose $275,000. The amendment reduces the sum to $155,000. The committee also decided to recommend non-concurrence in senate amendment to the military academy bill.

Another Counterfeiter Arrested.

U. S. Detective Finnegass to-day arrested Wm. W. Davis, confederate of John H. McDonald, the counterfeiter who was captured yesterday. McDonald owed his arrest to a woman of the town on whom he passed off some of the spurious coin and who gave information which led to his arrest. He in turn gave away his confederate who was found to-day on the ship *Santa Clara*, on berth for New York. Davis had formerly been in the navy and was intending to leave for that port on the *Santa Clara*.

MEXICO.

Order and Prosperity Increasing in our Sister Republic—A President with Good Sense.

[BY TELEGRAPH TO THE OREGONIAN.]

NEW YORK, Dec. 15.—John B. Fisbie, just from Mexico, speaks favorably of Diaz' administration, which is very desirous of preserving friendly relations with the United States. It has established order and inaugurated an efficient policy for the protection of peace on the frontier. The Lipan Indians, formerly very troublesome, are now removed to the interior. Diaz realizes that American enterprise and capital must build railroads and develop the mines in Mexico. The Sinaloa mines are attracting California capital, and other districts await development. They promise equally rich as they prove as profitable as the mines of Nevada or California. A large portion of Mexico is adapted to coffee culture. Diaz strongly favors international railroads, and attributes Mexican opposition hitherto to a distrust of the ability of parties applying for franchises. German capitalists are aiding this district of American enterprise, and with other foreigners, are getting the trade of the country largely into their hands.

Maximilian and Carlotta—What one who Knew them says.

Masseras, who held a responsible position in Maximillian's court in Mexico, is about publishing a work presenting Maximillian and Carlotta in a new light. He says that Maximillian was frivolous, fickle, incapable of governing himself or others. Most of his time was taken up in framing details of court etiquette or pursuing botany or other favorite studies, and with the word "organization" always on his lips, he prepared with his own hands the chaos under which the empire disappeared. Carlotta shared his weakness for court ceremonies, but possessed a more determined spirit and dignified sentiments. Before leaving Mexico he was seized with a malady which subsequently dethroned his reason.

THE TREATY WITH THE HAWAIIAN ISLANDS.

A Bill that Means Nothing—A Statement regarding the Present Treaty.

WASHINGTON Dec 14.—The joint resolution introduced in the house yesterday by Representative Gibson, of Louisiana, proposes to direct the president to give notice of the intention to terminate the Hawaiian reciprocity treaty in accordance with the terms of the treaty. These terms are contained in the fifth article, as follows:

The convention shall remain in force for seven years from the date at which it may come into operation, and further till the expiration of twelve months after either of the high contracting parties shall give notice to the other of its wish to terminate the same, each of the high contracting parties being at liberty to give such notice to the other at the end of the said term of seven years or at any time thereafter.

The convention was signed January 30, 1875, and the act of congress to carry it into effect was approved August 17, 1876 and on the 9th of September, 1876 President Grant by proclamation declared the treaty to be in operation. It thus appears that the treaty has nearly six months and seven years to run, and that by the terms no notice of intention to terminate it can be given by either government before the 10th of September, 1881. It is also evident that Gibson intends by this movement nothing more than to gratify his Louisiana constituents with a display of zeal for their interests.

The French Foreign Policy.

VERSAILLES, Dec. 15.—In the chamber of deputies to-day Count De Gontaut Byron questioned the government respecting the treaty of Berlin. The minister of foreign affairs defended the conduct of congress. He avoided compromising French neutrality in entering upon any binding engagements. He had supported Greece because that was the traditional policy of France. There would be united action of Europe in behalf of Greece on the initiative being taken by France.

The country is friendly. I am rapidly fortifying Peiwar pass camp." Gen. Roberts was to leave Ali Khil for Khurum to-day. Gen. Browne has sent a fifth regiment back from Dakka to Peshawar on account of sickness. Gen. Biddulph has constructed a road over Khojuk pass unopposed.

The Afghanistan War Debate Continued in Parliament.

LONDON, Dec. 14.—In the house of commons to-night Perry re-opened the debate on the Afghan war on the part of the government.

Sir William Vernon Harcaste, of the opposition, followed.

Sir John Hallar replied. The debate was continued by Captain Cochrane, Mr. Goust and Randall Plunkett, in behalf of the government.

Thomas Burt, radical, spoke, and was particularly vehement in his opposition to the war on account of the distress which prevailed in England.

A notable feature of the debate was the delivery of speeches by Mr. Newdegate and Gen. Sir Alexander Gordon, both conservatives, denouncing the government's policy. Sir Alexander declared Lord Beaconsfield responsible for that policy. During his speech he crossed to the opposition benches to avoid interruptions from conservative members. He was repeatedly cheered by the opposition.

The marquis of Hartington closed the debate. He said the very worst policy which was possible was that the partial or complete military occupations which he was afraid the government were determined to carry out on overwhelming concurrence of military opinion. He was opposed hereto. As for the argument that something was necessary to check the Russian advance, he believed that in consequence of the consolidation of the British power, the possibility of invasion was decreasing. No Permanent occupation of any portion of Afghanistan against the wishes of the inhabitants, it would only facilitate Russian intrigue, which would be best encountered by wise administration; or, if external means were necessary, by a direct explanation with Russia. He thought above all that Lord Lytton should be recalled as the incarnation of all that the Indian policy ought not to be. (Loud cheers by opposition.) But to effect this, we must also get rid of a government which is nominally spirited, but really abject. The foreign policy of the government, he believed, was nearly dead. He said, in conclusion, that whatever difference in opinion there may be as to the justice of the war, there was no difference on the subject of supporting the gallant troops engaging in it by every means in our power.

Whitehead's motion, censuring the government for its Afghan policy, was rejected by a vote of three hundred and twenty-eight to two hundred and twenty-seven. The Conservatives had anticipated a majority of one hundred and twenty.

Sir Stafford Northcote made the closing speech. He declared the recall at such a crisis of the viceroy, who were carrying out the government's policy, would be despicable. Lord Hartington, knowing it to be impossible, ought not to weaken the viceroy's authority. He pointed to the loyalty which prevailed throughout India as a refutation of the criticisms of the opposition. He ended by declaring that nothing could be more contrary to the feelings or intentions of the government to the policy annexation. They felt bound to guard the interests and security of India.

MONDAY MORNING, DEC. 16, 1878.

PAST AND PRESENT TIMES COMPARED.

Cheap food is the most important factor in securing to the United States the advantages in manufacturing industry in which we have recently been making so great progress. It is in a large degree because of relative cheapness of food with us that England is finding it so difficult to compete with American manufacturers. True, food in this country has always been comparatively cheap, since America is the greatest food-producing country on the globe; but until recently, owing to want of transportation and other circumstances, this advantage has never been made fully available. But now at length it has enabled us to get command over our own market for manufactured commodities. A further consequence is that while food is on the whole no dearer with us now than it was many years ago, clothing and other manufactured articles are generally much cheaper. In this statement only the necessaries of life are included, as the cost of luxurious living is much higher than formerly. A writer in the Cincinnati *Gazette* gives the following comparative prices of food in that city in the years 1828 and 1878:

	1828.	1878.
Flour	$4 00	$4 50
Corn	25	32
Hogs	2 60	2 80
Sugar—New Orleans	10	8
Hard white	18	10
Lard	6	7
Coffee	17	15
Coal	18	10

From this comparison the writer finds that, taking the average, the cost of food and necessaries of life are rather less now than in 1828. This is not materially affected by the quantity of money, as the proportion of the whole amount of money to the people was less in 1828 than that of 1878, but the price of money was then much higher. As to clothing, the difference is altogether in favor of the present times. The price of dry goods was never so low as it is now. Taken as a whole, we may confidently say that a family of five persons can live cheaper now than in 1828. In 1858 the cost of food was also somewhat greater than it is now, and the price of labor was no higher. Again, since the present public school system was established the cost of education has been reduced. The poor have little to pay, the charge being levied on the property of the country. Hence all the needs of a family are supplied now at less cost than fifty or twenty years ago, and a day's labor on the whole will get more necessaries than at any former time in the history of the country. This is not a fancy picture, but it is truth, established and confirmed by examination of prices during a long period. Scarcity of money is complained of, but it is also susceptible of proof that the currency circulation is now nearly double, in proportion to population, what it was then. The fact is, in spite of all croaking, which has become chronic and is kept up mostly by harangues of demagogues and appeals of politicians, the country was never materially better off than it is now. As for the agricultural classes, both the development of manufacturing industry at home and the vast foreign demand give them a steady market. True, the idle, the foolish and the improvident are not finding times easy, and they never will.

PUTTING PARTY ABOVE THE STATE.

Most of the Democratic organs in this state appear to be, in secret, if not open, hostility to Gov. Thayer, because they cannot rely upon him to comply with every party demand and to follow the dictates of a ring, with the blindness to results which characterised his predecessors. These organs have many words of condemnation for any man in politics who does anything to injure the "party," but not one of them ever has a word to say in regard to the perpetration by the late administration of monstrous wrongs upon the state. They cannot comprehend a mind which is capable of rising above the demands of party, and hence when Gov. Thayer attempts to reform abuses which this party spirit has produced and fostered, they at once assail him, not because of any alleged wrong to the people at large, but because his acts tend "to weaken the party." For this they would censure him. No charge is presented that any of the appointments which he has made are unfit, or that the parties appointed are not possessed of suitable qualifications. Had the appointees belonged to the ring of politicians which fattened off the state treasury during the extravagant reign of the Grover-Chadwick dynasty, these organs which dare not lift a voice against party rule would have lauded Gov. Thayer to the skies; but when he goes outside of that corrupt coterie of office seekers, though he may select men, against whose integrity and standing nothing can be charged, they all uncork their vials of wrath upon his offense against the Democracy. But their chafing seems to trouble his excellency about as little as it influences the people in making up their minds as to the merits of his administration. The "Jonahs" which the Democracy casts overboard are not those who may wrong the people or the state, but those who dare to do right even in the face of party dictates and usage. Extravagant administration, wasting of the school fund, reckless management of the state lands, and a general system of plundering the public treasury seem to be causes for heaving their Jonahs,—not overboard and out of the party—but into the U. S. senate.

STICK TO YOUR FARMS.

In advising people to stick to their farms, the New York *Herald* gives facts by way of illustration which may be profitably considered. A few years ago England was the only country which manufactured cotton prints for export, while the fact of any one competing with her in home markets was laughed at as a bit of insanity; but to day American prints are being worn by operatives in English cotton mills, having been found to be prettier, better and cheaper. Now we hear that agents of German cutlers have been to Sheffield, heretofore the acknowledged center of the cutlery trade of the world, and sold their goods at prices which the home manufacturers could not undersell. Sheffield will continue to make knives and scissors, and no American will be foolish enough to hope that the English print works will be closed, but the illustration we have given of the fluctuations of trade will show the American farmer that businesses which he mournfully considers more profitable than his own are subject to drawbacks and dangers which the agriculturist never knows. Breadstuffs and food materials of every kind are always in demand, and have a tolerably uniform value the world over. No competition, no new farming community that may be developed, can ever afflict farmers with a "lock-out" such as workers in the trades are constantly experiencing, nor is tremendous failures like those which are constantly startling the commercial world. The over-stocked manufacturer cannot eat his superfluous knives or paints, nor can the locked out operative dine on his tools, but in the worst season the farmer is sure at least of a full stomach and a roof over his head. Sensible is he if, instead of grumbling at his lot, he makes the best of it and realizes how in the long run he is better off than many of whose occasional success he envies.

The Greenbackers of many states mourn the shutting down of a brood of greenback organs, which had secured the payment of a large number of advance subscriptions. The biggest of these frauds was Shupe's *New York Advocate*, which claimed to be the peculiar friend of the workingman, and which obtained many thousands of subscribers, including lists from almost every state, but ceased to send papers after the recent elections. Some of the victims begin to realize that the greenback business is a fraud all round. In Oregon there have been many victims, both of local organs and others published at a distance, which have been discontinued; but the subscribers will really be the gainers by not receiving them, and their experience can be made useful to them, as that knowledge is sometimes which is gained by investments in other Peter Funk enterprises.

THE OREGONIAN has little time to waste on a person who is so utterly contemptible as to participate in an expert operation through which the state is robbed of a very large sum and then to put in the plea by way of extenuation or defense that it was the fault of the law that it didn't restrain him. Therefore THE OREGONIAN can give Tony a paragraph only now and then, when his disingenuous stupidity happens to assume some new phase. But omissions to notice him, which are much more often the result of utter contempt for him than of any importance that should be attached to anything he can say, he interprets as proof that somebody is afraid of his terrible pen. And yet that mighty instrument has brought him hitherto neither fame or fortune.

Even now, though resumption is practically accomplished, there are idiots in and out of congress who cannot be kept from making opposition to it. Every day, almost, brings some new effort to emt arrass it, mainly through silver schemes.

JAY GOULD'S LAST SCHEME.

THE EFFORT TO CONTROL THE TRADE BETWEEN THE ATLANTIC AND PACIFIC COASTS IN THE INTEREST OF THE UNION PACIFIC—PLANS ON FOOT TO DEFEAT IT—A COMBINATION OF SHIP OWNERS TO MAKE RATES NEARLY NOMINAL.

[From the New York Times, Dec. 1.]

Reports from San Francisco describe the almost complete paralysis of trade in consequence of the enormous tariff exacted by agents of Jay Gould in the vain attempt to compel New York and San Francisco houses to stop shipping via the Horn. Yet, while the bitter denunciations of the policy of the Union Pacific come from every quarter, New York and San Francisco houses dare not declare open war upon the railway interest. Another budget of contracts takes effect on December 1st; and it is estimated that since the beginning of September, when the movement commenced, the Clipper trade between New York and San Francisco has been reduced at least one-half; consequently the shipping interest in the United States is thoroughly aroused, and a meeting of shipowners is called for an early date to perfect measures to break up the combination. Under the natural arrangement of sending coarse freight via the Horn, shipage has of late years averaged about $15,000,000 per year, giving employment to about four hundred vessels, valued at $20,000,000. These vessels constitute

ONE OF THE LARGEST DEPARTMENTS

Of the American shipping interest. It is now proposed, in view of the fact that the carriage of grain from San Francisco and Europe can be made to pay the expenses of the voyage irrespective of any profit on bills of lading from New York, to reduce the tariff to a nominal figure, and to carry goods for next to nothing, and let Jay Gould fight it out with the shipping interest which can make upon California and European carriage what it loses on New York and San Francisco bills of lading. This plan is entirely feasible. It has been strongly urged by some large California shipping agents in South street, but they declined to adopt such a policy except upon the combined action of the ship owners of the United States, and suggested a conference to fix New York and San Francisco tariffs at such rates that the railroads cannot compete without great and constant loss. They aim to

FILL THE SAN FRANCISCO MARKET

Next spring with goods that can be sold at lower prices than winter shipments by rail and to force the San Francisco dry goods houses either to cancel their contracts with Gould or take the alternative of being undersold in their own market. Another element that will bring matters into the courts has been introduced by a large Thomas street house, one of the few that have declined to bind themselves by contract. This house uses the railroad as before for fine goods, paying the immensely advanced rates under protest with the reservation of the right to bring an action against the Union Pacific as a common carrier for the balance exacted over and above the legal tariff. Other business houses in New York and San Francisco are adopting the same plan, and Gould is likely to have an immense number of annoying suits on his hands before he shall have fully executed his project of annihilating the New York and California shipping interests.

New York *Post*: "Eugenie, Eugenia, will you still insist on wearing that hair of another woman upon your head?" "Alphonse, Alphonse, do you still insist upon wearing the skin of another calf upon your feet?"

Boston *Post*: Of a lot of young ladies who have visited at the White House since the Ohio idea went in, five are already married. That, you see, accounts for the crowd of girls always sitting on Hayes' front steps.

CONFIDENTIAL.

By latest advices from San Francisco we see that stocks are way down again. Here's an inside on a safe stock: buy Donnelly's Yeast Powder as it rises all the time, never *falls*. Tell your wife to use it and use nothing else. Its your only safe investment and secures future comfort in your house.

AMUSEMENTS.

Owing to the fact of the *Oregon* not leaving San Francisco until 10 A. M Saturday, the chances are very much against Miss Cavendish appearing to night Mr. Maguire has already substituted another bill for this evening, which introduces Mr. Walter Leman to the Portland public in one of his favorite parts, The performance will commence with the "Maid of Croissey" and the burlesque of "Pocahontas." Surely an attractive bill. Holders of reserve tickets for this evening can, if they so desire, have the corresponding numbers for Tuesday evening, when the world's famous artiste, Miss Ada Cavendish, will make her first appearance in Wilkie Collins' powerful creation, Mercy Merrick. Sale of seats already commenced at Morse's Palace of Art, and the likelihood is that this celebrated lady will be greeted on to-morrow night with one of the most fashionable audiences that ever assembled within the walls of New Market theater.

Miss Augusta L. Dirgon, the eminent tragedienne, who has recently played such a successful engagement at New Market Theater, and also at the Theater Royal, at Victoria, will be a passenger on the *Great Republic*, which will sail hence to-morrow morning. During her brief sojourn in Portland Miss Dargon has won many admirers and a host of warm friends. She is a refined and cultivated lady and an artist in the truest and highest sense of the word. The lady will carry with her the best and warmest wishes of hundreds who have been delighted and charmed by her thoroughly artistic and conscientious dramatic efforts. Should Miss Dargon ever revisit Portland she may be assured that a most hearty welcome will be accorded her.

STILL IN THE LEAD.

IN VARIETY, STYLE, ELEGANCE OF GOODS AND LOW PRICES.

In displaying my holiday stock I take pleasure in announcing to the public that my selections this season while in San Francisco have never been surpassed by any one—it being the finest invoice of jewelry, watches, diamonds and silver ware ever imported into the state. Owing to the prolonged continuation of hard times in the east and California, I was enabled to purchase at prices greatly below anything heretofore, and my customers are thereby gained in being able to obtain fine goods at prices materially reduced from former times.

I cordially invite the public to examine my stock and ascertain for themselves, assuring them that my well established reputation for fair dealing will be maintained, knowing that my goods cannot be excelled, and the prices are as low as honest competition can place them.

In presenting the above for public consideration I feel convinced that the patronage so liberally extended me heretofore will be continued as I will leave nothing undone to please and satisfy all. L. C. Henrichsen, 119 First street, Portland.

INTERESTING TO LADIES.—Dickey's "Creme de Lis" has now been before the public for ten years, during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being as all who have used it will verify, the only perfect preparation of its kind. Every ingredient entering the composition of Dickey's "Creme de Lis" is supposed to "the most rigid test of modern Chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—it being well known the public will appreciate and support a truly meritorious article. Several new beautifiers under various names have lately started into existence, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

U. S. vs. W. C. GRISWOLD.

DOCUMENT IN U. S. DISTRICT COURT AGAINST DEFENDANT FOR THE SUM OF $35,228.

The case of the United States vs. W. C. Griswold in the U. S. district court, has been brought to a close, resulting in a verdict in favor of the plaintiff. So much has been written concerning this important suit and it has been the subject of such an amount of public comment, that little requires to be added. Some months ago the cause was tried in the U. S. district court, but seven days were consumed in the examination of the testimony and arguing the case. After a long deliberation, the jury was discharged, having failed to agree on a verdict.

The second trial commenced on the 24th of November at 2 o'clock P. M., on the 11th of December the judge began his charge to the jury at 15 minutes to 11. The jury retired at 20 minutes after 1 o'clock On retiring for deliberation the jury stood on the first ballot, 11 for the plaintiff and one for the defendant At 10 P. M the jury returned with a verdict for the plaintiff in the sum of $35,228 Doubtless a judgment will be rendered on this verdict for the total amount claimed, together with costs, expenses and disbursements of the plaintiff which will amount to several hundred more.

This is the third judgment that has been rendered against W. C Griswold for his connection with the Indian war claims of 1854, which three judges and two juries have decided against him. In 1876 Mr Griswold was compelled to pay a judgment in favor of B F Dowell of $5 070 81

ADMISSIONS.

In this trial the important question was whether the defendant had at or before the collection of the fraudulent claims, commonly called the Jesse Robinson claims, had knowledge of their falsity. The other questions in the case were disposed of by the following admissions of the defendant, made in writing by his attorneys at the opening of the cause

That the following named claims, mentioned and described in the amended complaint were, and may be considered to be proved fictitious, to-wit, the claims of Estelle Lamb, S. S Isaacs, J. W Harris, A. O Knapp, Joseph C Nurd and J. W. Nichols.

That the following claims named and described in the amended complaint, were and are false in part and to the following extent, and he argues that they may be considered as proved to be false to the following extent, to wit

District court of the United States for the district of Oregon The United States vs. W. C. Griswold

For the purpose of this action but for no other purpose the defendant admits that the evidence sufficiently shows that the papers described and designated in the amended complaint in the first count thereof by the numbers 3 to 70, both numbers included, are no the original papers, which they purport to be, and he agrees that they may be considered as proved no to be such originals. The claim of William F. Wood, except $300; the claim of M. G Kennedy, except about $47, the claim of Benj. F Keyes, except the sum of $47, the claim of D. G. Stevens, except $567, and the claims for board of Hill, Miller, Mason and Wigan.

That the defendant collected from the government all the claims mentioned in the amended complaint as having been collected by him except the claim of Joseph C Nord. But the defendant does not admit that he had any knowledge, notice or suspicion, or reason to suspect that any of said papers were not the original papers which they purport to be, nor that any of said claims or any part thereof were false or fictitious at the time he purchased them, or at the time he collected them, or ever at any time until the evidence thereof was taken at and since the former trial of this action

W. Lair Hill, Geo. H. Durham and H. Y. Thompson, attorneys for defendant

The trial was commenced on the 26th of November.

The gross amount of the claims above admitted to be false or fictitious and collected by the defendant, is about $17,000.

A workman named Forbes, in the employ of Grant & Stone, at their mill near the Cascades, had his leg broken on Saturday last, while landing a heavy stick of timber upon a car at their tramway It rolled off the car and struck his leg, breaking that limb just above the ankle joint. He was taken to the Dalles for treatment

On Monday of last week the citizens of Halsey elected the following persons to take charge of and run their municipal affairs during the year 1879 President of the council Dr. A. S Smith, recorder, W. J. Stewart, marshal, A. C. Cline, treasurer S. S. Hayes, councilmen, James Crawford, Jacob Thompson, Jos Pearl and Wm. McCoy.

A correspondent writing from Umatilla says Emigration is still flowing in, and there is a great demand for houses and farms to rent, at the time of writing, December 4th, the weather was pleasant, and farmers were busy plowing and sowing. Twice as much ground will be cultivated this year as the last. Wheat is worth 50 cents a bushel; barley and oats a cent and a half a pound. Sheep are worth two dollars per head, cattle two to three cents a pound on foot.

The following from the *Inland Empire* shows that Cook, the murderer, is safely anchored. Sheriff Crossen got a blacksmith from Portland to make a set of irons for Jas. Cook, who killed Craig in jail about two weeks ago, that will be apt to keep that unruly gentleman somewhat docile for a while. The legs are kept apart about twenty inches with a bar between, while a similar bar about two feet long, with swivels at each end, separates the hands. These can be connected together at night by a chain and all danger of his escape frustrated. He needs all these precautions, as his immense strength renders him a match for any two ordinary men.

Jacksonville *Sentinel* We learn from Geo. Strong, agent for the Oregon and California Land Company, that a disagreement between the company and the county board of Lane county, in regard to the amount of land to be assessed to the company, is likely to result in a suit at law. When the company was first organized there were twenty members, and when the corporation was formed but nineteen subscribed to the articles of incorporation. Hence but nineteen twentieths of the land should have been assessed to the corporation, according to their view of the case. The county board takes a different view, hence a law suit.

MODERN MIRACLES.

Dr. C. M Wood, the well-known healer, returns to his practice in Portland, after a rest of six months. His great cures of men, women and children some of which were published in THE DAILY AND WEEKLY OREGONIAN during last winter, has brought hundreds of letters from anxious sufferers, desiring information as to the permanency of his cures. In order to satisfy those desiring such information, he will publish from time to time through THE OREGONIAN the original certificates of cures, and when possible, to communicate with such patients, a certificate of their present condition. $1,000 forfeited if every cure he has ever published was not genuine as stated.

Dr. Wood

Will heal the sick of chronic diseases, at corner of Washington and Front street, Portland. All curable diseases successfully treated when every other method fails. Dr. Wood cures by animal magnetism, and can point to the most wonderful cures ever performed by this method. *No medicine, no surgical instruments*—no pain whatever

Another of Dr. C. M. Wood's Marvelous Cures.

PORTLAND, April 24, 1878.

To the citizens of Oregon I make the following statement for publication On the 22d of February, 1878, my little boy William, then 3 years and 6 months old was stricken with total paralysis at 12 o'clock at night, for which I could assign no reason whatever. He remained totally helpless from the body down, for two days, with no apparent change. He had a high fever I was badly swollen, ate nothing, and so great was his pain the bit night clothes could not be removed from him, as the least movement caused the most excruciating pain. In this hopeless condition I took him to Dr C. M Wood Magnetic Physician, of Portland, who perfectly restored our boy in six treatments (consecutively), and at this writing he remains perfectly well and hearty, and has never had a symptom of the disease since

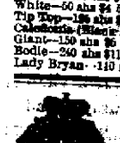
FELLOWS'



COMPOUND SYRUP

Is composed of ingredients identical with those which constitute Healthy Blood, Muscle, Nerve and Brain Substance, whilst Life itself is directly dependent upon some of them.

Dr. Howe's Testimony.

During the past two years I have given Fellows' Compound Syrup of Hypophosphites a fair though some what severe trial in my practice. In restoring persons suffering from emaciation and the debility following diphtheria, it has done wonders. I constantly recommend its use in all affections of the throat and lungs. In several cases considered hopeless it has given relief, and the patients are fast recovering. Among these are consumptive and old bronchial subjects, whose diseases have resisted other modes of treatment. For impaired digestion and in fact for debility from any cause, I know of nothing equal to it. WM. M. HOWE, M. D. Pittsfield, Me.

DR. P. M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhœa, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.
